Website Redesign Proposal

Prepared for Lakeside Bakery · October 2026

Overview

Lakeside Bakery wants a website that makes ordering simple on any phone. This proposal covers the new design, an online ordering page, and a short training session for the team.

Scope of work

- New home, menu, and about pages
- Online ordering with pickup times
- Photo shoot of the full menu
- Two rounds of changes after launch

Timeline

Design starts on 2 November and the new site goes live on 14 December, in time for the holiday rush.

Budget

Design	$3,200
Development	$4,800
Photography	$1,100
Total	**$9,100**

Project Notes

The bakery's busiest hours are 7 to 10 in the morning. Most visitors arrive on a phone, so every page is designed for small screens first.

Customers asked for clear prices, allergy information on every item, and a way to order a cake a week ahead. All three are part of the new menu page.

We will check in every Friday with a short update and a link to the latest version of the site.
